ERRATUM

Released: July 5, 2006

By the Acting Chief, International Bureau:

1. On June 23, 2006, the Commission released a Notice of Proposed Rulemaking, FCC 06-90, in the above-referenced proceeding in which it seeks comment on the establishment of service rules for the 17/24 GHz Broadcasting-Satellite Service.

2. By this Erratum, the Notice of Proposed Rulemaking is amended as follows:

- The caption of this proceeding is amended as follows: in the 2nd line, a hyphen is inserted between the words “Broadcasting” and “Satellite”; in the 7th line, the word “Broadcasting” is deleted and the word “Service” is changed to “Services”; in the 8th line the number 17.7 is changed to 17.8, and so the amended caption in this proceeding reads as follows:

“The Establishment of Policies and Service Rules for the Broadcasting-Satellite Service at the 17.3-17.7 GHz Frequency Band and at the 17.7-17.8 GHz Frequency Band Internationally, and at the 24.75-25.25 GHz Frequency Band for Fixed Satellite Services Providing Feeder Links to the Broadcasting-Satellite Service and for the Satellite Services Operating Bi-directionally in the 17.3-17.8 GHz Frequency Band”

- The Comment Date and the Reply Comment Date stated on page 1 of the Notice of Proposed Rulemaking is amended to be consistent with paragraph 106 of the item, and so the amended pleading cycle dates set forth on page one of the Notice of Proposed Rulemaking reads as follows:

Comment Date: (75 days after Federal Register publication);

Reply Comment Date: (105 days after Federal Register publication)

- The third sentence in paragraph 106 of the Notice of Proposed Rulemaking is amended to delete the reference to IB Docket No. 06-90 and correctly identify the docket number in this proceeding, IB Docket No. 06-123, and so the amended third sentence reads as follows: “All pleadings are to reference **IB Docket No. 06-123.**”
- The first sentence in paragraph 108 of the Notice of Proposed Rulemaking is amended to delete the reference to IB Docket No. 06-90 and correctly identify the docket number in this proceeding, IB Docket No. 06-123, and so the amended first sentence reads as follows: “Parties choosing to file by paper must file an original and four copies of each filing in IB Docket No. 06-123.”
- The second sentence in paragraph 109 of the Notice of Proposed Rulemaking is amended to delete the reference to IB Docket No. 05-20 and correctly identify the docket number in this proceeding, IB Docket No. 06-123, and so the amended second sentence reads as follows: “The diskette should be clearly labeled with the commenter's name, proceeding (including the docket number, in this case, IB Docket No. 06-123), type of pleading (comment or reply comment), date of submission, and the name of the electronic file on the diskette.”
- The first sentence in Appendix A of the Notice of Proposed Rulemaking, in line seven of the paragraph, is amended to delete the word “Broadcasting” and to change the word “Service” to “Services” to reflect the correct caption, as amended herein, in this proceeding, and so the amended first sentence in Appendix A reads as follows [footnotes omitted]: “As required by the Regulatory Flexibility Act of 1980, as amended (RFA), [fn. 238, omitted] the Commission has prepared this present Initial Regulatory Flexibility Analysis (IRFA) of the possible significant economic impact on a substantial number of small entities by the policies and rules proposed in this item, the Establishment of Policies and Service Rules for the Broadcasting-Satellite Service at the 17.3-17.7 GHz Frequency Band and at the 17.7-17.8 GHz Frequency Band Internationally, and at the 24.75-25.25 GHz Frequency Band for Fixed Satellite Services Providing Feeder Links to the Broadcasting-Satellite Service and for the Satellite Services Operating Bi-Directionally in the 17.3-17.8 GHz Frequency Band, Notice of Proposed Rulemaking (*NPRM*) [fn. 239, omitted].”

- In footnote 239, the citation to this proceeding is corrected to reflect the correct caption amended herein, and so amended footnote 239 reads as follows: “*See The Establishment of Policies and Service Rules for the Broadcasting-Satellite Service at the 17.3-17.7 GHz Frequency Band and at the 17.7-17.8 GHz Frequency Band Internationally, and at the 24.75-25.25 GHz Frequency Band for Fixed Satellite Services Providing Feeder Links to the Broadcasting-Satellite Service and for the Satellite Services Operating Bi-Directionally in the 17.3-17.8 GHz Frequency Band, IB Docket No. 06-123, FCC 06-90, Notice of Proposed Rulemaking (NPRM), rel. June 23, 2006.*”
